Online Summer School 2020

Bioeconomy Science Center

BioSC
Bioeconomy Science Center

From plants to pilot plant

August 24th – 28th, 2020

Virtual events at Forschungszentrum Jülich, RWTH Aachen, Campus Kleinaltendorf Bonn

Holistic process development in a sustainable bioeconomy

You are an advanced master or PhD student or an early Post-Doc?

You want to learn about value chains covering biomass production, pretreatment and process development for production of high valuable compounds?

You are interested in life cycle analysis and want to learn about business models?

You want to get in contact with international researchers and students from all levels of training?

Then, you should join the BioSC International Online Summer School!

Find further information here:
